

Letter from the President

March 27, 2020

Ladies and Gentlemen,

Because of the current coronavirus health situation, the Governor of New Hampshire has announced that all nonessential businesses and activities are to be closed effective at midnight tonight. Starting today the Pemigewasset Valley Fish and Game Club will be posted as being closed. All events on the calendar have been canceled. All the ranges will be locked and posted closed. You can expect this to continue through the month of April and until May 4. It is important to note that this may change as this situation moves forward. We will keep you informed through our web site and with email notices when things change. Thank you for your patience during these trying times. Please stay safe and well.

Jon Heinonen

President
