

WALK CLASS

For beginners and others who do not relish running 800 meters five times! **This class may substitute for the Beginner Class.**

You will shoot all four five-shot bouts in the prone position at the offhand (larger) targets.

You will walk 400 meters (200 meters out and 200 back) on the marked trail before the first five-shot bout, between each five-shot bout and after the last (fourth) five-shot bout for a total of 2000 meters walked.

There will be NO penalty loops walked. Instead, a penalty (time) factor will be added to your time for each miss. Slings will not be used in this class. A rifle rest may be used in this class. Individual coaching will be allowed in this class.

You must carry the rifle by the barrel, muzzle up, **BOLT OPEN** from rack, to firing line and back each bout. Remove the bullet **clips** before leaving the firing line.

Your **finger must be off the trigger**, placing your finger straight out, above the trigger guard and long-side of the stock until you are on target and you are ready to shoot. While on the firing line keep the muzzle pointed down range at all times.

Be sure to follow any and all of a Range Safety Officer's instructions.

Safety First!

Safety Always!
